Full Stack Developer

Los Angeles, CA | 818-297-6270 | mattelliottus@gmail.com

<https://mattismean.com> | <https://www.linkedin.com/in/fullstackmatt/>

Full Stack Web Developer with five years of freelancing experience, holding a certificate in Web Development from UCLA Extension School. Highly proficient in HTML, CSS, Bootstrap, jQuery, and a vanilla JavaScript enthusiast. Thrives in team environments equally enjoying learning experiences and teaching opportunities while crushing deadlines and expectations. Enthusiastic about building powerful web applications that meet modern business needs. Recently implemented the MERN stack on a project with a team of three to deliver a private social networking platform to clients. A documentation digester who will accept new challenges and produce results.
